

INTERFACE G2

INTERFACE G2

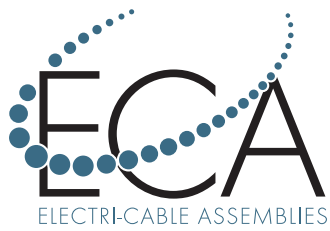

Data Packed Conference Power Solution

The Interface G2 is an ideal solution for large conference tables and meeting spaces. It seamlessly replaces the Interface Series with new and improved features that fit the same cutout size. Packed with four power and three telecom plate cutouts, the Interface G2 is available in configurations both with and without USB to satisfy all your connectivity needs.

THE INTERFACE G2 PROVIDES:

- A newly designed lid that fully opens allowing easy access to power, data and USB capabilities. An integrated brush helps keep units free of debris.
- A convenience outlet, allowing access for ancillary accessories to be powered below the worksurface.
- Configurations that now include 2.1 amp USB ports for charging your favorite devices including high powered devices such as tablets when in use.
- A variety of finish options including Gloss White (new), Silver Pearl or Black powder coat as well as Brushed and Anodized aluminum and Brushed Stainless Steel.
- Same cutout as Interface Series units for easy retrofit opportunities.
- ETL Listed
