Seclusion™ Series with USB and Data

The Seclusion Series with USB and Data is a flexible solution that can easily be mounted to the top or bottom of table surfaces. Newly added configurations with the option for additional data capabilities give users the ability to configure the Seclusion with all the appropriate data or A/V components to meet their individual project requirements. USB ports charge your favorite devices while Tamper Resistant receptacles offer an added level of safety. An optional Seclusion Clamp On Accessory is available for effortless installation eliminating the need to cut or drill holes in the furniture.
